

Akers Biosciences, Inc.

Material Safety Data Sheet

Product Name: PAIFA[®] Heparin / PF4 Rapid Assay

| | |
|------------------------|------------------------------------------------------------------------------------------------------------------------|
| Company Identification | AKERS BIOSCIENCES, INC. 201 Grove Road Thorofare, NJ 08086 USA Tel: +1(856) 848-8698 Fax: +1(856) 848-0269 |
| Product Name | PAIFA [®] Heparin / PF4 Rapid Assay |
| Kit Components | 6 MiniReactor Devices |

Note: No MSDS issued. Per OSHA 29 CFR 1910.1200, Material Safety Data Sheets are required only for products containing hazardous ingredients as concentrations equal or greater than 1% and/or carcinogens at a concentration equal or greater than 0.1%.

Some components of this product are derived from human blood-based materials.

No test method can provide total assurance that Hepatitis B Virus, Hepatitis C Virus, Human Immunodeficiency Virus or other infectious agents are absent. Thus, all products derived from human blood or serum that we provide should be handled at the bio-safety level 2 as recommended by the CDC/NIH manual: 'Bio-Safety in Microbiological and Biomedical Laboratories, for potentially infectious human serum or blood Specimens'.

Each donor utilized in our products has been tested according to FDA guidelines for the detection of Hepatitis B Surface Antigen, Antibodies to HIV, Antibodies to Hepatitis C, HIV-1 antigen(s), and Syphilis. All donor units yielded non-reactive/negative results for each test performed. All Blood products were collected in the United States of America from human donors in licensed FDA centers and tested with FDA approved test kits.
